

Human Energy Efficiency Retrofitting Optimisation

The **SUPER-HEERO** project aims at providing a replicable financial scheme for energy efficiency investment in small and medium supermarkets, based on stakeholder and community engagement.

Human-based
Energy
Efficiency
Retrofitting
Optimisation

OBJECTIVES

Develop and engineer an innovative scheme for energy efficiency investment in small and medium supermarkets based on stakeholder and community engagement.

Compile a portfolio of ad-hoc energy measures for supermarkets.

Implement innovative financial instruments for energy efficiency investments in two relevant pilot case studies.

Define a structured strategy and methodology for the replicability of the financial scheme at regional and national level.

Identify barriers and needs to support the development of regulatory and policy frameworks that allow the uptake of innovative financial schemes for energy efficiency investment.
